PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 293A at Iowa, Louisiana.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 293A to Iowa, Louisiana as that community's first FM service. Iowa is an incorporated city with a population of 2,753 people. Iowa has its own mayor, Margo Racca, city offices, post office, schools, volunteer fire department, police department and a number of local churches. The proposed channel 293A will provide additional diversity and an

outlet for local self-expression to Iowa residents and therefore is in the public interest.

In order for Channel 293A to be allotted to Iowa, Louisiana, two stations must be reclassified from C's to C0's. Those stations are KIOC, Channel 291C at Orange, Texas and KOVE, Channel 293C at Galveston, Texas. (See, Attachment A, Request to Reclassify Statement for KIOC) and (See, Attachment B, Request to Reclassify Statement for KOVE) Note: KIOC's Application for Modification of License was dismissed as moot on 7/7/03.

Attached hereto is a channel study confirming that Channel 293A can be allocated to Iowa, Louisiana, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment C) Reference coordinates for Channel 293A at Iowa, Louisiana are:

30 14 43 N
93 05 56 W

Should this petition be granted, and Channel 293A be allotted to Iowa, Louisiana, Petitioner will apply for Channel 293A, and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my

knowledge.

Request to Reclassify
Station KIOC(FM), Orange, Texas
Pursuant to MM Docket 98-93

Radio Station KIOC(FM), Orange, Texas is licensed to Capstar TX Limited Partnership, 2625 S. Memorial Drive, Suite A, Tulsa, OK 74129, (Facility ID 33060), FCC File No. BLH 20030303ACM. The facility operates with a power of 100 kilowatts with center of radiation 326 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KIOC(FM) be modified to specify operation on FM Channel 291C0 instead of on FM Channel 291C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Charles Crawford, the proponent of Channel 293A at Iowa, Louisiana, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KIOC(FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Iowa, Louisiana as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Capstar TX Limited partnership, as is required in the above Docket.
